SWIFT RANGE**

**HAVE TO  
have it.**

# THERE'S MORE TO SEE

**See one. Try one. Love one. Buy one. Just one look at any of the models in the stylish Swift range and you'll want to know more. You won't be disappointed.**

Standout design makes the Swift unique and instantly recognisable, whilst its compact dimensions allow for nimble dynamics. In fact, once you've experienced the sharp handling and natural responsiveness of the Swift, you'll have to have one all of your own.

Not to mention, a Euro NCAP 5-star rating makes the Swift reassuringly safe, whilst great fuel economy and low CO<sub>2</sub> emissions mean it really is as good as it looks.

The best bit? You get to choose from the streetwise Swift, the assured Swift 4x4 and the fun-filled Swift Sport. So needless to say, whatever your needs, there's a must-see Swift for you.

A close-up, black and white photograph of the interior of a Swift car. The image shows the dashboard, steering wheel, and center console. The dashboard is made of a dark, textured material. On the left side of the dashboard, there are two air vents. In the center, there is a small rectangular panel with the text "SRS AIRBAG" embossed on it. On the right side, there is another air vent and a hazard warning button. Below the dashboard, the steering wheel is visible, and the center console features a navigation screen displaying a map and a radio display showing "FM1 90.00MHz". Below the navigation screen, there are buttons for "VOL", "PWR", "AUX", and a temperature control knob with a red ring. The overall lighting is dramatic, highlighting the textures and contours of the interior components.
