INSPIRED BY YOU

During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

## TECHNOLOGY FOR LIFE

Citroën C3 is filled with innovative technology that is intuitive, simple and seamlessly quick. Every advance is there to fit right into your routine and enhance the everyday.

ConnectedCAM Citroën™\*  
NOTHING GETS MISSED

The ConnectedCAM Citroën™\* camera is an inspiring in-vehicle safety innovation. Constantly filming when you're on the move, it senses if you have to slow down suddenly and automatically triggers a video that records 30 seconds before and 1 minute after the event. If you do have an accident, this saved video can be used as evidence. There's also a free ConnectedCAM Citroën™ app\*\* that transmits your GPS coordinates every time you stop. This means your Citroën C3 can always be found in an instant.

\* Available on selected models. Filming and taking photos with ConnectedCAM Citroën™ must comply with the laws and data protection regulations of the country you're in, and you are responsible for meeting these legal obligations. You will also need to check with your insurance company whether they will accept recordings from the system as legal proof before use.

\*\* Your free app is available on the App Store and Google Play.

## ConnectedCAM Citroën™ PERSONAL SAFETY CAMERA

The free ConnectedCAM Citroën™\* app is looking out for you in many ways. It has a geolocation function that transmits your GPS coordinates each time you stop, which could prove invaluable in the event of an accident. Additionally, if you're involved in an impact while travelling, ConnectedCAM Citroën™ automatically saves video footage from 30 seconds before and 1 minute afterwards.

*\*Free app available on App Store and Google Play.*

*Metropolitan Grey interior not available in UK.*

*\*Filming and taking photos with the connected camera and using recordings must comply with various laws, depending on the respective country, for example data protection regulations. You are responsible for compliance with such laws. We cannot take any responsibility whether your insurance company will accept ConnectedCAM Citroën™ recordings as a means of proof. Please check it with your insurance company before using.*

## CONNECTIVITY COMES NATURALLY

Using Citroën C3's extensive connected technologies is simply second nature. CITROËN Nav\* is controlled by voice recognition or through the 7 inch touch screen and brings you a wealth of information, from real time traffic reports to the location and price of fuel, car parks and even weather forecasts. There's also a Danger Zones option which sends you both audible and visual alerts for known accident black spots.\*\* On some models you can enjoy Mirror Screen Technology, which lets you control your smartphone† applications using the touch screen. This ingenious feature is available via Apple Carplay™, Mirror Link® and Android Auto.

\* Available on some versions.

\*\* Available in countries where legislation allows.

† Dependent on smartphone model.

Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

SMART, SAFE AND SOPHISTICATED SAFETY AND 11 DRIVER AIDS

**HILL START ASSIST\***

When you pull away on steep gradients, Hill Start Assist holds the car for 2 seconds, giving you time to pull away safely and smoothly.

*\*Depending on engine choice*

**LANE DEPARTURE WARNING SYSTEM**

If Citroën C3 crosses a solid or intermittent white line without the indicators being activated, the Lane Departure Warning System sends clear visual and audio alerts to the driver.

**COFFEE BREAK ALERT**

This system reminds the driver to take a break on long journeys, for example after 2 hours at average speeds over 40 mph.

**CRUISE CONTROL/SPEED LIMITER WITH SPEED LIMIT SETTING**

The recommended figures can be set in the cruise control and speed limiter for complete peace of mind.

**SPEED LIMIT RECOGNITION AND RECOMMENDATION**

Designed to recognise speed limits and display them clearly to the driver on the dashboard.

### KEYLESS ENTRY AND START\*

Because Keyless Entry and Start recognises you as you approach, you can unlock, start or lock Citroën C3 while the key is still in your pocket or bag.

*\*Available as an option*

### REVERSING CAMERA\*

Shift into reverse and the Reversing Camera with parking sensors shows a clear view of what's behind you on the 7 inch touchscreen. Colour guidelines show exactly where any obstacles are and help you manoeuvre around them more easily.

*\*Standard on Flair*

### BLIND SPOT MONITORING SYSTEM\*

A really useful safety innovation on quicker roads and motorways, the Blind Spot Monitoring System alerts the driver to vehicles approaching from behind in the blind spot, using an orange warning light mounted in the door mirror.

*\*Available as an option*

### ACTIVE SAFETY BRAKE\*

This new emergency braking technology minimises the risk of collision. It starts working from just over 3 mph and is designed to sense pedestrians, moving and fixed obstacles. If the system detects a collision risk, it sends a clear warning and if the driver doesn't respond it automatically applies the brakes.

*\*Dependent on version*

### DRIVER ATTENTION WARNING\*

By analysing the direction of Citroën C3's travel, this reassuring system can detect if the driver has lost concentration and sends an audible and visual alert.

*\*Dependent on version*

### INTELLIGENT BEAM HEADLIGHTS

This feature automatically switches between high and low beam, when another car is detected.

## ENGINEERED FOR EVERYWHERE
